Dear Sir or Madam:

Review of our records show the water use permit covering the above referenced project is scheduled to expire on the date listed above. For your convenience, we are writing this reminder allowing you or your current lessee adequate time to plan for renewing the permit. We have enclosed a set of application forms that you should submit before your permit expires. By filing this application before the expiration date you will protect your water rights.

A valid water use permit establishes, as well as protects, your rights to water. All uses of water, except for fire fighting and domestic consumption by individual users, are required to have a valid consumptive use permit. The use of water without a valid consumptive use permit is a violation of Chapter 373.219 Florida Statutes and Rule 40E-2.041 of the Florida Administrative code.

Please complete the enclosed application forms and submit them to the Water Use Regulation Department, along with the appropriate application fee. Alternatively, you may fill out an electronic application at [www.sfwmd.gov](http://www.sfwmd.gov). If your records indicate that you are purchasing water, have a valid water use permit for this project, or are a single family home, please contact me at (561) 682-2055. Should you have any questions regarding completion of the application forms, please feel free to call our office at 1-800-547-2694 and one of our water use permit reviewers would be happy to assist you.

Sincerely,

A handwritten signature in cursive script that reads "Stephanie Lancaster".
